

SMARTOP™ with SCANDINA™ Cap

Saves time, saves gas, improves safety
Exclusively from Air Liquide

Benefits and Features

- Positive ON/OFF lever action prevents gas leaks common to traditional valves.
- ON/OFF lever opens and closes valve quickly in a single action and provides positive visualization of valve status.
- Built-in pressure gauge shows cylinder contents at a glance without use of a regulator.
- Accurate function is tested by Air Liquide during every cylinder refill.
- Includes a Residual Pressure Valve (RPV) to prevent atmospheric contamination of cylinder contents.
- SCANDINA cap permanently protects SMARTOP cylinder valve and allows easier, safer cylinder handling.
- Built-in gas flow restriction provides added protection in the event of accidental gas line breach.

Available with **ALPHAGAZ™ 1**
and **ARCAL™** products.

SMARTOP™ with SCANDINA™ Cap

Improves safety & simplicity

ON/OFF lever closes quickly in an emergency and provides unmistakable indication of valve status

Ergonomic design makes it easy to handle and maneuver the cylinder

Fixed shock-absorbing SCANDINA cap provides added safety during transport, service and use

Attach pressure regulator, flip up lever and you're ready to go

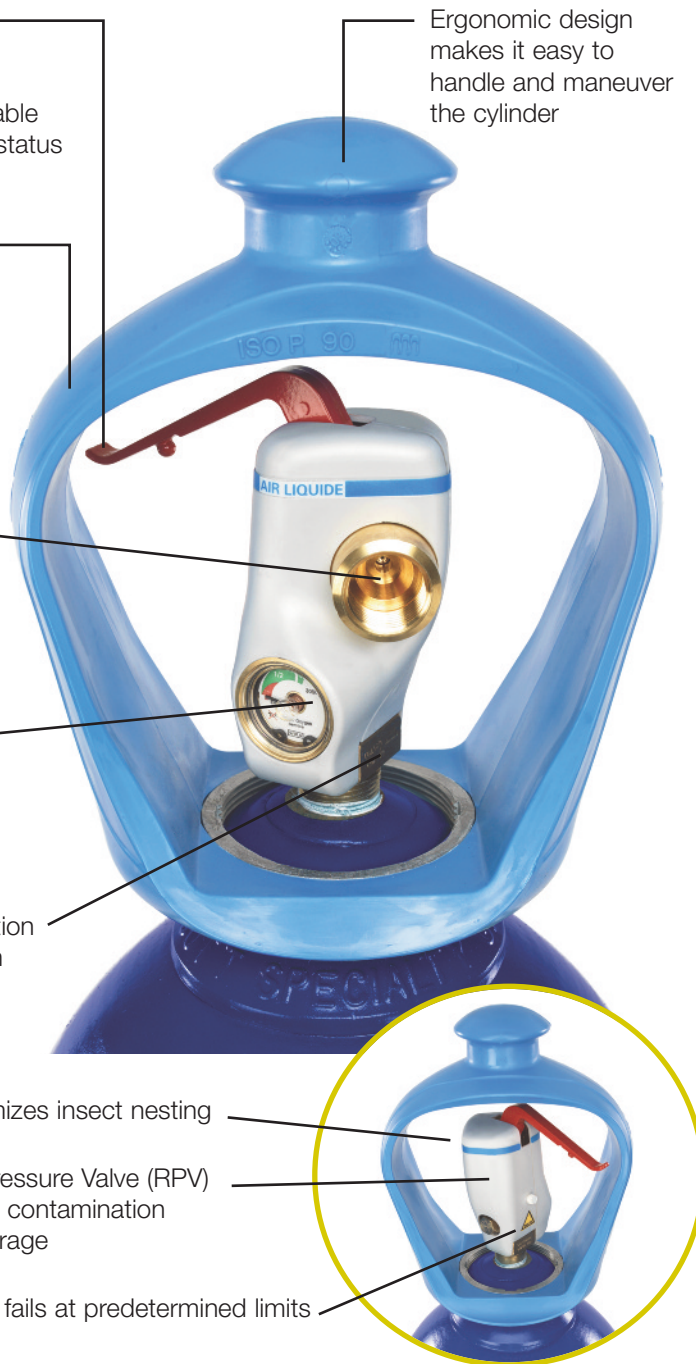

View pressure of cylinder at a glance without use of a regulator

Built-in flow restriction provides protection against accidental gas line breach

Open design minimizes insect nesting

Built-in Residual Pressure Valve (RPV) prevents back flow contamination during use and storage

Safety relief device fails at predetermined limits

Improves safety, saves time and money

- Positive ON/OFF lever prevents wasted gas due to partially closed traditional style valves.
- Visual reading of cylinder contents without having to attach a regulator prevents accidental return of half-full cylinders.
- Visual ID of valve status prevents valves left open during breaks and off-business hours.
- Handle cylinder faster and more easily. Open and close valve with a single action.
- Permanent cylinder pressure/content display allows more efficient management of gas inventory.
- Eliminates the need to remove or replace cylinder caps—no more lost or stuck caps.
- Accepts all SCOTT™ single and two-stage pressure regulators.

SCOTT brand regulators work perfectly with our SMARTOP. Visit ALspecialtygases.com or see our catalog for a complete selection of single-stage and two-stage pressure regulators in brass and stainless steel. Same-day shipping is available on most.
